

## **RoHS Statement**

The purpose of the RoHS Directive is the restriction of the use of certain hazardous substances and to reduce the waste management problems linked to substances likely to pose risks to health and the environment. The RoHS Directive specifically addresses the reduction of use and ultimate banning of the following substances:

- Cadmium
- Hexavalent Chromium
- Lead
- Mercury
- PBBs (Polybrominated biphenyls)
- PBDEs (Polybrominated diphenyl ethers)

As of July 1, 2006, BMS Speakers GmbH completed a redesign of the product line and production facility to ensure our products conform to the European Union's Restriction of Hazardous Substances (RoHS). All products currently meet the RoHS Directive and are marked accordingly.
